

Safety Data Sheets (SDSs)

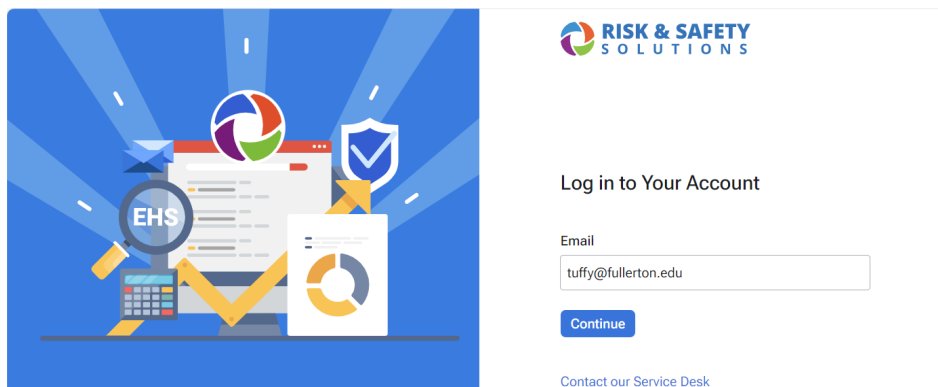

Safety Data Sheets (SDSs) are detailed fact sheets summarizing information about a chemical, including health and physical hazards, emergency procedures, chemical reactivity and incompatibility, and disposal procedures. SDSs are available online to members of the campus community.

Access to SDSs

SDSs are available from by visiting <https://app.riskandsafety.com/sds>. This link may be accessed via the EHS website at <https://ehs.fullerton.edu>.

After clicking the link, log into RSS using your campus username and password. You may be required to complete DUO Two-Factor Authentication to log in.
